The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive the cut is to purify and enrich the it out is to purify and enrich the blood.

blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause head-

oughly and quickly assimilate with the blood, purifying and strengthen-ing it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is posi-tively not injurious.

Gents:—Upon the recommendation of a friend I tried Brown's Iron BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking Brown's Iron BITTERS, responded "that is a good tonic, take it."

form us that the work of threshing is about completed in that valley. The crop generally is light, but the damthe grain by the storms of s month ago is not as great as it was : t first anticipated. In some cases where the grain was threshed while it was still damp, there is considerable dam-aged grain, but in all cases where the grain was allowed to dry before it was threshed, it is found to be uninjured. Mr. Lauer at this place is engaged in making flour of this wheat that was exposed to the storm, and although it ecessitates slow grinding, the quality of the flour is as good as can be made from any wheat.

The GAZETTE has ever shown a disposition to protect the community against imposition. It has never concealed any fraud or tried to put a false face on any matter of public concern. We assure our readers that we would do the same thing in the matter of ction if we knew of any attempts at committing a public wrong, and by one party as quickly as any other. We believe the Republican ticket the best calculated to serve the erests of this county and this State, and we therefore advise all who can do so without violating their convic-

Washoe county certainly owes mere han a common debt of gratitude to Powning. No man ever asked for a vote who has tried harder to benefit Reno than he. He has given liberally towards all public improvements, at times when it was entirely unselfish and had no political significance. Nothing ever came up for Reno's benefit that did not enlist his hearty and these ought to be of some weight in a town that needs help as badly as Reno. Republicans have no reason to vote against him, while Democrats in western Nevada have a good many reasons for voting for him.

For State Senator Washoe needs a man identified with her. The Democrats have nominated a gentleman who in 10 years. P. N. Marker came here nearly a quarter of a century ago, and of the Peace. has been one of the most active men in this county ever since. He has been a miner, farmer, road-builder, cattleraiser, teamster. He has built saw mills and run them; built flumes and run lumber through them. He has owned water rights and dug ditches to irrigate land. He has owned a store at Washoe for 12 or 15 years and has been a heavy dealer in wood and lum- lieve he will do it. ber. Such a man would make the best of Senators.

The Republican Legislative ticket will take a leading place in the Assembly. Varian is a keen debater and lawyer. Fish is one of our most competent business men. His long experience in this county will be extremely useful in case of a constitutional change. Price has been a Legislator many times before, and has the benefit of much experience in that - line. He can be of good service to his constituents if re-elected.

Mr. Jenvey's wise head is undoubtedly needed to build up and systematize the schools of Washoe county. His energy is untiring, his love of learning inexhaustible and his fondness for children make him universally beloved. No better nomination could be asked for. The cause of education is sacred and politics should not prevent our Democratic friends from helping us to secure Mr. Jenvey's services.

Wadsworth's claims upon the Re publican party date back to its birth. She has been the banner precinct. Her good citizen G. W. Sawyer is wanted for Commissioner and he will undoubtedly be elected. His snowwhite head is evidence of experience. Men of his years have learned lessons in life which we boys know little of. He will be a safe counsellor and a good county father.

Reno is an incorporated town, but the laws are not enforced. If S. C. Fogus is elected Commissioner he will look after the stovepipes and the fire system, the streets and the dirty alleys. Reno needs him. He is a man of large views and a practical mind. His administration would be of great service to this county. No man need ask for a better supervisor.

Bicknell for Clerk, Hallock for Controller, Dermer for Secretary of ism receive its reward. He is worthy State, Tufly for Treasurer, Daven- and capable. port for Attorney General, Young for Superintendent of Schools and Harlow for State Printer are names that should run wherever thre are taxpayers who desire an economical and efficient government formed.

The Republicans of Nevada can vote for Strother for Governor with the certainty that he will do them mor in that high office. His admin istration will solidify the party and strengthen it with the people, laying the foundation for future successe It will be dignified, economical and pure.

The splitting up of the Republicans has heretofore been the ruin of the party and an injury to the county Boardman's forces should support Powning, and Powning's friends should reciprocate and heal the breach which has been so long existing in the party, through their personal disagreements.

Dan Boyd is an honest man. esty is the first requisite for County Treasurer. The confidence felt by the people of this county in Dan's integrity is a high and flattering compliment, more to be prized than ches. His children will remember it with pride.

Among the many candidates for Constable, Nash is justly considered to be the most prominent. He is an old time Republican and a very com-His

He has been always accessible, very attentive to his duty. remaining at his place late and early. with no vacations. He has the adhas not spent four months in Nevada vantage in experience, and daily grows in all that makes a good Justice

> Comstock wants the votes of all his friends. No man ought to forget him when he casts his ballot. To have men of experience in public offices is Comstock pledges himself to carry out the good Republican doctrine of economy, energy and devotion to duty if elected. Those who know him be

The office of School Trustee is one which should be well filled. No trust is more important than those that involve the care of our youths. Dr. Waggoner and Mr. Gould can be safely relied upon to do all that can be done with the school fund. They both have children of their own, and will feel a personal interest in seeing the schools go on well.

The office of Public Administrator s an important one and should be filled by the re-election of Mr. Dickens, who has done his duty and made the tax-payers no expense that could be avoided. His office has been satisfactorily administered and he deserves to be continued in it.

Bridges is a good surveyor and can divide anything from a mince pie to a Government reservation. In all his experience, however, he has never been able to survey any little Bridges, but

make a good officer in any place. Let efficiency be your only standard. There are no mendicants on the Republican ticket. All are men of standing and business ability. Think well before you vote against them.

fought for his party when no one ousy is the supposed cause.

General Evans is an old settler, a gentleman of education and intelligence. He is a life-long Republican and has always been a wise counsellor for the party. He can and should be elected. No better judge of property or safer man could be chosen As-

Hon, C. S. Varian will make an able representative for Washoe county His experience as a legislator, coupled with his ability as a lawyer, will make him a power on the floor of the Assembly Chamber.

Vote for C. S. Preble and secure one place in the State House for Washoe county. He is competent, reliable, temperate and industrious. Let Washoe recognize her own and give him a good vote.

Frank Emmitt has made a lively anvass and deserves well of his party. In the words of Shakespeare, he has done all that doth become a man. He who does more is none. If elected Sheriff he will do the same.

The Immigration Association of San Francisco reports the number of overland immigrants for the past week at 934, and for the month of October 4.155.

The man who tries to be elected by infair or underhand means will not make a good officer. Copper him. Mr. Leonard has been an upright and able judgs. Sustain him.

G. W. Merrill, the Democratic nominee for Attorney-General, claims tain that you give it in the interest of to be a good lawyer and an honest ings of the last session of the Legislature show that he voted and supported ple at heart. The Republican party the lottery steal bill while representing Eureka county in the Legislature two years ago. His vote was cast in he teeth of a decision recorded in the 9th Nevada Supreme Court reports. It will be to the interest of the State if voters allow him to remain at home. Vote for W. H. Davenport.

> It was Hon. C. S. Varian who con ceived and passed the compulsory education law, which has been the means of giving many a poor boy a start in life. It was he who introduced and passed the bill which drove the threecard monte thieves from this State. Let parents remember this. Cast your ballot for C. S. Varian.

It was H. H. Beck who introduced and passed a bill in the Assembly robbing Washoe county of the richest and best part of her territory. The ordinary business prudence. The Coal Oil Excitement. BRADFORD, Pa., Nov. 5.

Notwithstanding the fact that this is Sunday, there has been an active market in all the exchanges in the oil region to-day. The market yesterday closed at 119½, but to-night brokers are buying all the oil offered at 125, one heavy speculator taking a block of 100,000 barrels at that figure. Some Chicago capitalists have bought up a million or so of barrels. is also largely interested in this move ment. Orders to buy come in from all parts of the country. To-night as high as 126 was bid.

### . THE CAUSE.

The facts that led to the meeting are fresh in the minds of the community. There was a disagreement between the two, growing out of politics, started in the present political campaign. This led to the publication in yesterday's Sentinel by Mr. Reek of a very bitter card against Mr.

### THE FRAY.

Yesterday afternoon Mr. Reek came down from Ruby Hill, where he lives, to call a physician to sttend his wife, who was ill. He stopped on the street at the point where the shooting took place to talk to Thomas Dale.

### DALE'S STATEMENT.

Mr. Dale says that he and Mr. Reck were standing together on the side-walk, he on the edge of the sidewalk with his back towards the street, and rust it has to be painted, and those of him. While they stood and were conversing quietly, Dale says that Reek looked across the street, and said, without excitement: "There comes Anderson." A moment after-wards he says the shooting began, the first shot being fired from behind him.
He did not see Anderson at the time.
He was grabbed by Reek, who held
him in front of him. He struggled and got out of the way as quickly as possible. When the first shot was fired Reek had no pistol in his hand. He (Dale) got scared and knew nothing about the shooting that followed, except he heard a number of shots in

WILLIAM PERRY'S STATEMENT. William Perry says he saw the whole affair. He was standing near by on the pavement. He saw Anderson comwhere Reek and Dale were standing.
When Anderson got near, Reek drew and fired on him. After that the two went skirmishing around with Dale between them. Reek ran up the street, across toward the Parker House.
Anderson followed him, running mid. way of the street, pistol in hand, when Sheriff Kyle met him and took the pistol away and packed him into Dr. Schneider's drug store. He (Perry) says as positively that Reek fired the first shot as Dale says that he did not.

### OTHER STATEMENTS.

There were many persons who saw the outcome of the affair, but Messrs. Dale and Perry are the only persons we were able to find who saw the trouble at the outset. Dr. Stowell says he saw a good deal of the fight from his drug store. The two combatants tought around and shot around Thomas Dale. He could not tell who fired the first shot. Some say Anderson fired while running up the street; others say he did not fire at all at that time; others still assert that he snapped his pistol only; and others again say that he raised his pistol as if to fire, but that it dropped suddenly to his side

### BARBED WIRE.

How to Build a Fence that will Stand for Years.

Many tons of barbed wire for fencing have been sent into the country from Reno during the past few weeks, and there is still a large quantity at the depot awaiting shipment. This the depot awaiting shipment. This suggests an item, and the agricultural editor of the GAZETTE gives the following advice to its farmer readers: In building wire fence the chief re-quirement is an immovable end post. Several years' experience has taught that an end post needs to be set very firmly, to be of extra size and length and so well braced that there can be no possible chance for it to be pulled over. The post had best be set three and a half feet, and the first post ten feet from it so that it may serve for "foot" for the brace. In carrying wire over the "ups and downs" of the land, it is disposed to "run," and the fence can be made much stronger, and also guard against this, by setting every tenth post three feet, and tamping it with small stones so as to hold t secure. Then in crossing hollows the tendency of the wire is to " lift, so that in the lowest places extra care should be taken to set one or more posts very deep and secure, so that they cannot be affected by the con traction of the wire. Galvanized wire is the best. Its cost is only one cent per pound more than the painted, which is in realty no protection to the metal, for it soon peels off, and then to save the iron from Mr. Reek was standing just in front only who have painted a barbed wire fence can enter into the spirit of a recital.

### RENO, Nov. 6. Refrigerator Cars.

The new method of shipping fresh meat bids fair to revolutionize the butchering business. Refrigerator cars, with a capacity of 600 quarters of Christian virtues in the 19th cenare being constructed, by which fresh meat can be shipped from the West to any part of the country, landing the meat as firm and fresh as when it fresh to their neighbors. They extol the name of fraternity of mankind, but talk left the West. The immense saving of fraternity of mankind, but talk in cost of transportation thus brought about has already reduced the price of fresh meat in New York one third. Meat that sold for eighteen cents is now selling for ten and twelve. Mr. Armour of Chicago, the head of the greatest pork packing house in the greatest pork packing house in the life and rubble order instead of the life and rubble order instead of world, expresses the opinion that this trade will soon assume gigantic proportions, and will revolutionize the business of supplying fresh meats. It is about the time some method was discovered for cheapening the price of meat, and the public will hear with

# REPUBLICAN PLATFORM.

RESOLVED. That the honor and glory of the Republic, its continued peace, prosperity and progress will be best served by the perpetual ion and continued success of the Republicationarty. We declare our fidelity to its principles as expressed in the Chicago platform of 1880, and as further embodied in its great history from its organization to the present time

RESOLVED. That in the tragic death of President Gardeld our country has suffered a deplorable pass, and the Republican party mournor one who consecrated a noble and heroifife to the vindication of its great purposes. RESOLVED. That we have faith in the prunt and sacretous administration of Presient Arthur and believe it will result in prototing the best interests of the country.

RESOLVED, That the presence in our midst of a servile race of aliens, incapable of assimilating with our institutions, is a perpetual menace to al classe of society. The relief extended to our people by the passage of a law excluding the Chinese by a Republican Congress and approved by a Fepublican Fresident is a genuine cause of satisfaction. We are in favor of strenuously enforcing the provisions of said law, and we piedge the Republican party to labor now and henceforth to se cure such further legislation as will permanently exclude the Chinese.

RESOLVED, That we recognize the paramount importance of maintaining unimpaired the free public school system of the State. We shall defend it assinst sectarian, political or other improper influences, and we favor such further egislation as the condition and wants of the common schools of the State may require. As free institutions they should be so conducted as to satisfy poer and rich slike, and upon this principle we urze the adoption of some system by which this State shall furnish the text books at the lowest possible figure.

solver. That owing to the remote ports of Nevada from the sea-board and the enabence of navigable waters and complines of railroads to and from commercenters, we demand from Congress such leasume and effective legislation as will eour people on terms of equality in retto transportation charges with communes specially favored by railroad monoposes

RESOLVED, That we piedge the Republican party of Newada to such a course of enlightened legislation as will extend to railroad and other corporations doing business in this State the same protection and the same rights before the law as is accorded to individuals—no more and no less. And further, that the Republican party favors and demands at the hands of the State Legislature legislation regulating and equalizing freights and fares, on all railroads within this State.

RESOLVED, That we are in favor of the Government of the United States establishing a postal telegraph service, and operating the same in connection with the Postoffice De-

RESOLVED, That the colnage of silves could be placed upon the same basis as that [gold, and we invoke early Congressional gislation to that end. RESOLVED. That it is the duty of the Legis-ture to enact such laws as will result in the urification of the jury box and better pro-tote the administration of justice.

Resolved. That it is the duty of the next egislature to pass such laws as shall reduce he expenses of state and county governments to the lowest posseble limits consistent with he requirements of the public service. the requirements of the public service.

RESOLVED. That the earn-set attention of Congress and the State Legislature is directed to the subject of codifying the laws relating to the location and working of mineral lands to the end that legitimate prospecting and the development of our chief source of wealth may best be promoted.

RESOLVED. That the appropriation by a Republican Congress for the payment of pensions to invalid Union soldiers and to the veterans of the Mexican war is the disclarge of a debt of honor and law-a generous remembrance of our country's defenders in its supreme hour of peril.

brance of our country's defenders in its supreme hour of peril.

RESOLVED. That in the judgment of this convention the Legislature, when next convened, should make the necessary provisions for a convention to levise the entire constitution of the State; that in providing for such convention well-guarded re-trictions should be made, defining the number of delegates, their compensation, and fixing the duration of its session; that we believe such a convention is imperstively demanded by the urgent secsetities of the times, and among others for the following cogent rersons: First—to change the fundamental law so as to secure as nearly as may be the equal and uniform taxation on all property subjected thereto. S-cond—to regulate and render equal and just all the rates of passage and freights upon all railroads doing business in this State, to the end that our leading industries may be fostered and not oppressed, built up and not overthrown; and third—to secure the reduction of the expenses of the State to the minimum by dispensing with all unnecessary officers and employes. rendering more speedy and economical the collection of public revenue, and the general administration of justice.
